

Empowering education

SEAMLESS DEVICE ACCESS

Simplifying the move to sustainable device access for all 1:1 learners.

Implementing your 1:1 Device Programme

- » We specialise in providing education-focused solutions that enhance learning outcomes and support teachers with tech-driven lessons.
- » We provide end-to-end services for your 1:1 Device Programme, managing everything from planning to deployment and support, so your staff can focus on education, not logistics.
- » Robust security solutions protect devices and data with advanced protocols, safeguarding against breaches and cyber threats.
- » Our education-focused consultants and technical experts certified from Microsoft, Google, and Apple offer training, troubleshooting, and ongoing support to ensure your programme's long-term success.
- » We provide guidance on how to effectively communicate the benefits of the programme to parents and other stakeholders.

1:1 may not be top of your list.
Let us put it at the top of ours,
let us make it easier for you.

The key benefits

01 Personalised learning

Students can access tailored resources and progress at their own pace, empowering them to take ownership of their education.

02 Equal access for all

Providing every student with a device ensures no one is left behind, bridging the digital divide and creating equal learning opportunities.

03 Enhanced engagement

Interactive tools and multimedia resources make lessons more dynamic, increasing student interest and participation.

04 Secure and safe technology

Managed devices with built-in security protect students from harmful content and safeguard school networks from data breaches.

05 Achieving sustainability

Optimise the lifecycle, cut upfront costs with Capex-to-Opex, use financial modelling for smarter decisions, and reduce risks for lasting success.

06 Flexibility in learning

1:1 devices enable uninterrupted education, whether students are learning in the classroom, at home, or in a hybrid setup.

Trusted partners

We believe that facilitating the right 1:1 Device Programme for you means working with the best in the industry.

That's why OfficeXpress partner with leading technology providers known for their innovation, reliability, and sustainability. Our strong relationships with top brands ensure that your institution benefits from cutting-edge devices and technology tailored to the specific needs of the education sector.

From high-performance laptops and tablets to advanced security solutions and device management tools, we work closely with our trusted partners to bring you the latest technology. With us by your side, you'll have access to a wide range of devices and services.

OfficeXpress offer tailored solutions that meet your unique needs, ensuring that your 1:1 Device Programme is both efficient and future-proof.

A digital strategy

By evaluating how current technologies support educational goals and daily operations, in-depth analysis helps us understand where your institution stands and how technology is leveraged.

Based on these insights, we assess your organisation's preparedness to adopt a 1:1 Device Programme for students and work with you to develop your strategy. This includes creating a clear action plan with defined goals and a step-by-step roadmap for success.

Our team stays with you throughout the programme, providing expert guidance to ensure the action plan is followed, progress is tracked, and adjustments are made as needed to keep your project on target.

OfficeXpress will facilitate your 1:1 Device Programme with our proven 3-step digital strategy.

Step 01 1:1 readiness assessment

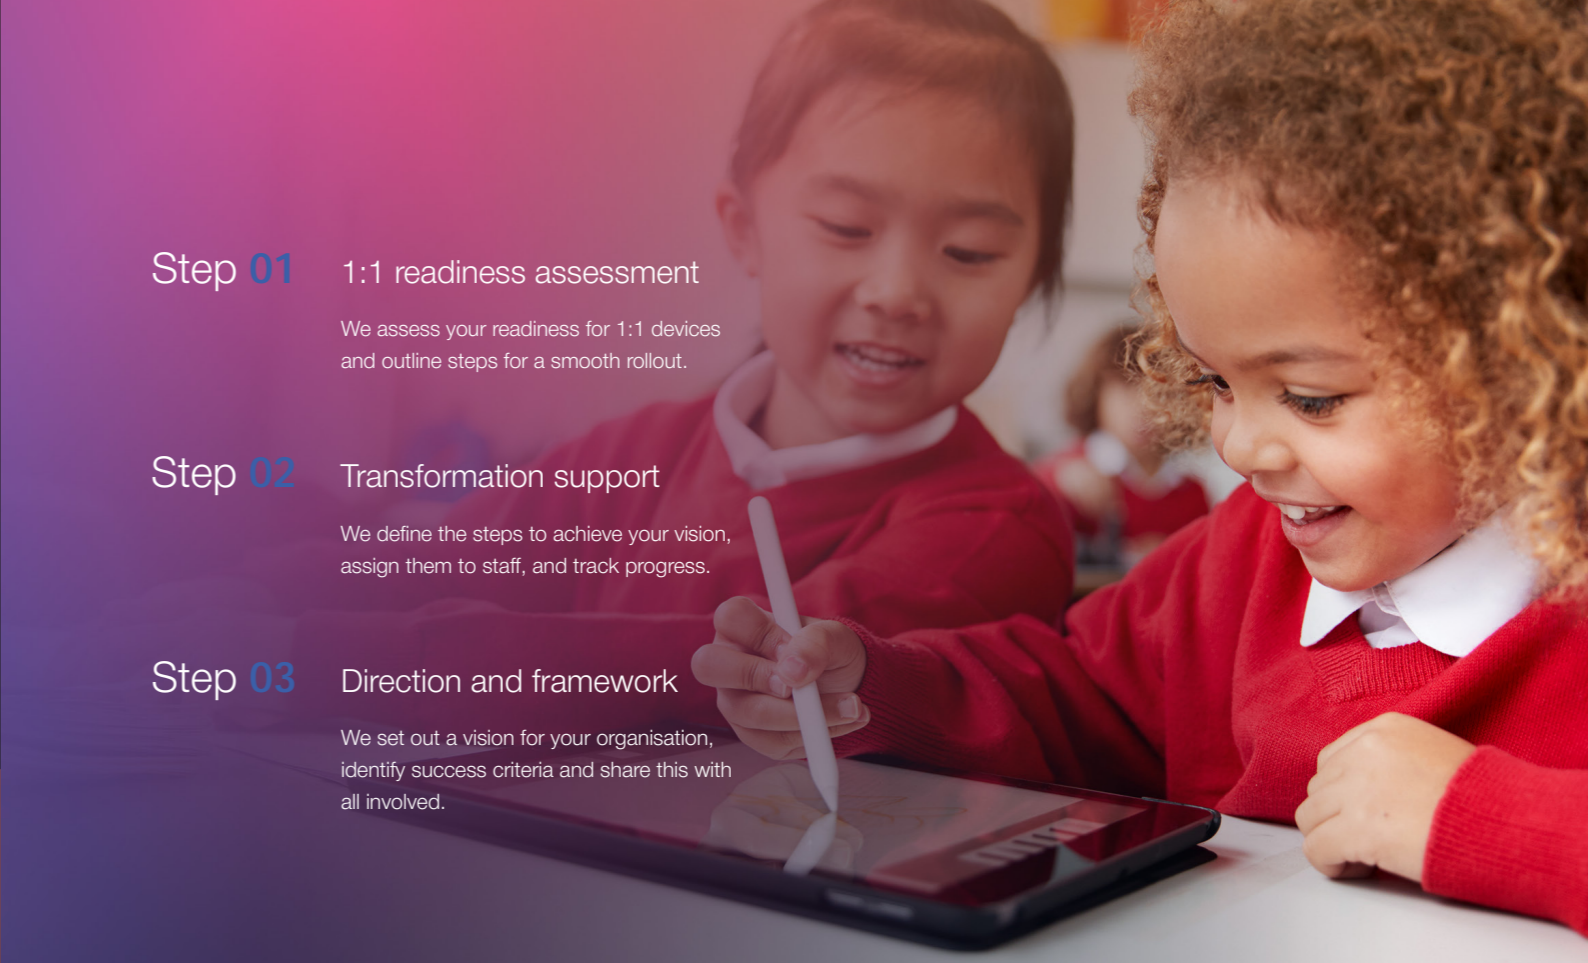

We assess your readiness for 1:1 devices and outline steps for a smooth rollout.

Step 02 Transformation support

We define the steps to achieve your vision, assign them to staff, and track progress.

Step 03 Direction and framework

We set out a vision for your organisation, identify success criteria and share this with all involved.

Starting your journey

Our step-by-step guidance for a successful rollout of your 1:1 Device Programme.

Embarking on a 1:1 device journey can feel overwhelming, but with OfficeXpress, the process is clear and manageable. Our step-by-step programme is designed to guide your school every step of the way, ensuring a smooth and successful rollout tailored to your needs.

From assessing your current technology landscape to deploying devices and providing ongoing support, we'll help you create a strategy that enhances teaching, empowers students, and protects your network. With clear milestones and expert guidance, we take the guesswork out of implementing a 1:1 Device Programme.

Explore our diagram to see how we will work with you to make your vision a reality.

	Evaluation	Strategy	Planning	Deployment
Financial leadership	<p>A focus on change management, cloud adoption, and the vision for technology.</p> <p>Assess available 1:1 financial packages.</p>	<p>Finalise and communicate the digital strategy, including cloud adoption and vision.</p> <p>Create an action plan and identify a sustainable finance package.</p>	<p>Select device reseller and finance company.</p> <p>Finalise the 1:1 contract including the device, term, maintenance, finances and ownership.</p>	<p>Continue to set expectations for staff and students.</p> <p>Monitor progress and impact.</p> <p>Embed a repair and replace process.</p>
Teaching & learning	<p>Review of teaching spaces.</p> <p>Confirm suitability of staff technology.</p> <p>Identify skills gaps with a digital skills review.</p>	<p>Create a Professional Development Plan addressing skills gaps in the review.</p> <p>Identify device form-factor and functionality required.</p>	<p>Begin staff training in preparation for 1:1.</p> <p>Set expectations for the use of the cloud and devices.</p> <p>Plan for teaching students digital skills.</p>	<p>Continued staff training programme.</p> <p>Teach students the required digital skills.</p> <p>Begin replacing paper-based activities with digital solutions.</p>
Technical operations	<p>Confirm infrastructure and connectivity will support 1:1 devices.</p> <p>Review current licensing and identify new requirements.</p>	<p>Update IT strategy to include 1:1 devices, new licensing and cloud requirements.</p> <p>Identify device specification, security and technical requirements.</p>	<p>Secure required licensing and infrastructure upgrades.</p> <p>Build a deployment plan and test the chosen device.</p>	<p>Deploy devices and MDM solution.</p> <p>Monitor usage and report issues early.</p> <p>Embed a repair and replace process.</p>
School community	<p>Engage with a focus group to gauge interest and resistance to 1:1 devices.</p> <p>Consult with governors and school committees.</p>	<p>Agree an approach to Safeguarding and Acceptable Use policy.</p> <p>Develop a communication strategy, including a timeline.</p>	<p>Communicate and consult with parents and the school community.</p>	<p>Continue to engage and collect feedback.</p> <p>Address concerns as they arise and communicate successes.</p>

Procurement

Educational institutions can face unique challenges when it comes to managing technology deployments while adhering to strict budgets, procurement rules, and regulatory requirements.

That's why we've aligned our 1:1 Device Programme with trusted national frameworks, specifically designed for the education sector. Framework agreements provide a streamlined, compliant, and cost-effective way for schools, colleges, and universities to procure essential technology services.

By leveraging these frameworks, we offer pre-negotiated pricing, simplified purchasing processes, and complete transparency - ensuring you get the best value without the hassle of lengthy tender procedures.

» Crown Commercial Service » Everything ICT

» Crescent Purchasing Consortium

Our 1:1 Device Programme is seamlessly integrated into the most trusted frameworks found within the education sector.
